Laura THAY

Looking for my next opportunity starting from March 2021.

Les Descodeuses, first coding school for women in France to solve the problem of parity because everything is better mixed (only 10% of woman in the tech industry)

Coming back from my 2-year world tour after graduating from my master's degree in digital marketing. I developed a passion for project creation.

Skills Summary

- HTML5/CSS3
- Wordpress
- JavaScript
- Photoshop
- Git Environment
- English
